## The Itty-Bitty Show!

The Itty-Bitty Variety Show features *The Three Little Bla-Bla-Blas*, a mostly wordless version of the Pigs and Wolf story that even the youngest child can thrill to; followed by a sing-along *Caterpillar Puppets Club Song* about caterpillars turning into butterflies; then an *Artist Mouse* who instantly and expertly draws a lucky someone in the audience; next *The Copycat Game* led by a baby orangutan; and finally a very exciting version of *The Gunniwolf* where, in the end, the whole audience helps rescue a little child!

This in-person puppet show lasts 30 minutes.

## Fan Letter

"What could be better than a room filled with children and parents laughing their heads off to the antics of puppets? Mr. Leon knows his crowd, knows how to tell a good story and does so with glee. He was a pleasure to work with and we look forward to having him back.

Sincerely, Emma Coleman

PS. My 4 year old was one of the kids rolling in the aisles and we're still quoting the baby puppet's line, "Puppet Show! Puppet Show!"
